Class Descriptions

Creative Dance (C.D.)

We offer three age groups for our C.D. program. These classes offer an entertaining curriculum designed to introduce young children into the world of dance. We engage the students enthusiasm while working on motor skills, strength training, balance, rhythm, timing ballet, creativity with songs and games and technique. At this level of instruction, we emphasize having fun while we learn!

Ballet

Ballet is the backbone of all dance styles. To excel in other styles of dance ballet is a must. This class includes correct technique along with proper French terminology. (Pointe is offered only by teacher recommendation.)

Hip-hop

An upbeat class that helps develop muscle coordination. Dance style that is seen on many dance videos. This class has a full jazz warm-up, followed by a series of jazz steps with a Hip-Hop groove. Combinations taught will be Hip-Hop.

Cheernastics

Students will learn the basics of tumbling and mat work, while collaborating with Jazz routines.

Gymnastics

Classes for all levels starting at beginner up to advanced. Learn gymnastics steps and then put them into routines. This class will help develop and define motor skills.

Twirling

Classes for all levels starting at beginner up to advanced.

Learn twirling movements and then put them into routines with some dance.

Contemporary

Contemporary dance is a style of expressive dance that combines elements of several dance genres including modern, jazz, lyrical and classical ballet. Contemporary dancers strive to connect the mind and the body through fluid dance movements.

Contemporary dance stresses versatility and improvisation, unlike the strict, structured nature of ballet. Contemporary dance can be performed to many different styles of music. *Ballet Technique is a must

Broadway Theater Tap

This class focuses on Tap dance with singing and acting. Students will learn choreography to Broadway songs.
